Guiding the Future on the Right Path

Jeyamohan M.

Business Analyst | SDLC | Agile Project Coordination | System
Analyst | Business Process Management

Nuwara Eliya District, Central Province, Sri Lanka

Summary

I am jm, well-skilled in leveraging modern technology advancements to drive innovation in scalable software solutions. With expertise in project planning, resource allocation, and timely product delivery, I apply strategic thinking, analytical problem-solving, and risk management to optimize software development. My technical capabilities include user story mapping, low-fidelity wireframe modeling, functional prototyping, and workflow efficiency improvements. I excel in teamwork and communication with business clients, ensuring seamless collaboration. With a strong foundation in management, system design, and workflow analysis, I am eager to align with the IT sector, contributing to impactful and innovative projects.
